Attention Mr. [REDACTED]

Dear Mrs. [REDACTED]

I am enclosing my summaries on this case. I am most anxious to follow up this family which is particularly interesting from the point of view of a relationship of Schizophrenia, mental defect, heredity and environment.

Could I please have your summary of findings or a conference notes for our file. If there is going to be a conference on this child, could I take part in it?

Yours sincerely,

[REDACTED]
