Dear Dr. [REDACTED]

Re: [REDACTED]

I want to apologize for feeling obliged to write you again with respect to the application for admission of [REDACTED] a child of less than two years.

It seems that the family is threatened with a complete break-up to the detriment not only of the parents but the one normal child which they have. This threat may be averted if the mentally unhealthy child -- [REDACTED] -- could be removed to your institution.

Please understand that I am fully aware of your problems and difficulties but am wondering whether in view of the circumstances prevailing in this family, special arrangements could not be made to admit this child at an early date.
