Toronto 4, Ontario.
August 15, 1957.

Dr. [REDACTED]
Superintendent,
Ontario Hospital School,
Orillia, Ontario.

Dear Dr. [REDACTED];

Re: [REDACTED]

Our studies on this case to date have not produced a definitive diagnosis. We will consult Professor [REDACTED] and if need be Dr. [REDACTED] of the Hospital for Sick Children, with a view to solving this interesting problem.

We regret that a vacancy in our staff has helped to delay this report.

Sincerely yours,

[REDACTED]
Provincial Pathologist.
