to work in the house she would  
always put you out in the street  
and said she caught. could -

Do the ~~was~~ work you could

Do the work better than you could where it was Mother's place to show you how to do the work in the house but she would never show you how to do house work instead of putting you out in the streets where it was your place in the house not out in the streets your mother should be there instead of you and her fancy man she has got to know with her know she has just put you there so you would not see what was going in the house & she would do as she wanted to do and go out and have a good time and your father would not put you in there and dad will have you out now. matter what he can or goes he is going to have his own way
