ANNUAL PHYSIOTHERAPY REPORT - 1978

[REDACTED] received physiotherapy treatment in 1978 for rehabilitation following surgical repair of his fractured left hip with a pin and plate. The first day he attended, February 2, it was discovered that he was able to walk with full weightbearing on his left leg, with almost no limp, and with good stamina. His treatment was cancelled by Dr. [REDACTED] the following day as being unnecessary. Thomas had a total of 2 physiotherapy appointments in 1978, 1 of which was kept.
