live at [REDACTED] but have moved to an even worse environment at [REDACTED]
[REDACTED] (See [REDACTED] report). There is not too good a rapport
at home. Mother protects children when caught stealing etc. Father lays down
the law- apparently according to his own inclination at any given time. Dis-

reasoning, judgment and maturity to direct the family pattern of behaviour.

knowledge, judgment, ethical or moral standards are well below the normal. Her
adaptability and peer relationships are only fair, and she prefers staff con-
tacts.
