Re - [REDACTED]

Dear Sir:

Your letter of May 6th enclosing medical certificates for the above-mentioned boy has been received. Unfortunately, Dr. [REDACTED]'s certificate is outdated and we are returning it herewith. Would you please ask him to examine the boy again and correct and initial the dates on the certificate? Section 21 of the Mental Hospitals Act printed on the back of the form states that every certificate should be completed within seven days of the examination. This document should be returned as soon as possible.

Would you please inform the parents that we will be able to admit [REDACTED] on June 6, 1955? They should bring him to hospital between the hours of 9 a.m. and 4 p.m. on that day. It will take about an hour to complete the admission routine.

Yours very truly,

FCH/DC
